

Jurassic 5 Lyrics

"Hey"

[talking]

Scorpio...Cancer...Leo...Taurus...Sagittarius...
Hey...hey, hey

[Soup]

Now, if theres a party theres about to be
Then let me start queing up the frequency
Six members, fresh spinners, we make the fly ladies say...
Hey...Hey

The Shak-Zulu shot a rhyme right through you
Now your don't want static with my crew now, Do you?
C.A. all day, we make the party people say...
Hey...Hey

Check it, regardless what you heard this year
The party atmosphere is only crackin' right here
And uh, we givin' you the theme that ya want
Cha come clean if ya want, know what I mean
If ya don't because...

[All]

We just wanna get you out
To the party everybodys talkin' bout

[Soup]

And you dont have to worry bout a fee
Ya see its all vi-a-vi
Because you're rollin' with me and uh...

[All]

We just wanna get you out
To the party everybodys talkin' bout

[Marc 7]

Yo, we thought we'd come a little different
Somethin' unscripted
Push up our percentage
Rip it like we meant it
Vintage verses
Sentence wordsmith
Here with no delay
Relax and don't decay
Turn to the DJ

He can make ya people say...

Hey...Hey

[Aki]

Yeah, yeah, party people in the place to be

It's all live cause the party is packed

(No straps, just raps)

Sweat drippin' ain't nobody set trippin'

All the ladies testifyin' to that...

Hey...hey

Ay yo I'm feelin' the vibe

Take you on a natural high

Boogie wonderland cause we gon' party tonight, yo

[All]

Cause we just wanna party wit you...

Hey...hey

Open up your mind and let the vibe flow through (Uh)

Cause you dont have to worry bout a thing

Let the rhythm heal your brain

While the party people sing (Hey!)

[Chali 2na]

Yo, the more you offer, displayin' your inner visions

Oral officers will be freein' your inhibitions

So skip an intermission and suddenly parlay

Cause movers are hot pumpin' in butter from parkay

You wonderin' what that prehistoric force is

Make you scream...

Hey...hey

Like a heard of hungry horses

Yes, the music you approached me with was inappropriate

Cause me and my associates are closely knit shit

The main course on the menu for today say...

Hey...hey

(talking in background)

Hey...hey

[Soup]

Now if theres a party for the gangstas here

The DJ's spinnin' records you don't wanna here

To have it your way

Participate and make him play...

Hey...hey

I represent it, get wit it for the hood

The lights is turned low and the mood is all good

Whether you parlay

Or on the dance floor say...

Hey...hey

Regardless what you heard this year
The party atmosphere is only crackin' right here
And uh, we givin' you the theme that ya want
Cha come clean if ya want, know what I mean
If ya don't because...

[All]

We just wanna get you out
To the party everybodys talkin' bout

[Soup]

And you don't have to worry it's enough
No guest lists and stuff because you're rollin' with us
Now if theres a party theres about to be
Then let me start queing up the frequency
Six members fresh spinners, we make the fly ladies say...

Hey...Hey

C'mon, The Shak-Zulu shot a rhyme right through you
Now your don't want static with my crew now, Do you?

C.A. all day, to make the party people say...

Hey...Hey

(talking in background)

Hey...hey, hey

(talking in background)

Hey...hey

[Sample] **And all round you people are screaming,
nation tan, nation tan, nation tan, nation tan
shit, here it come again, here it come again,
here it come again, here it come again,
here it come again**
